

FURNACE CUSTOMER COMMENTS

April 6, 2017
DAKA Furnace Owner

"Thanks for the great customer service. I wish President Trump could reverse the EPA regulations that has forced you to shut down furnace production".

William J, Fairbanks, Alaska

February 24, 2017
DAKA Furnace Sales Partner

"We appreciate your commitment to getting our stores taken care of and making the displays sellable. That has helped us sell the product rather than forcing us to defect it out which neither of our companies want. Thanks for your support over all these years and hopefully, we are able to do business again down the road".

Thanks,

Al Horn

DAKA Model 521FB Furnace Owner

"The EPA strangulation (regulation) that prohibits the sale of wood burning furnaces after May 15, 2017, is unconscionable and a threat to the freedoms and well-being of Americans who depend on wood for their heat. We have heated our home wonderfully with a DAKA furnace since 2002 and love it. We are on a limited income, so wood heat is very economical and saves us a lot of money. It also provides income for people who sell firewood. We bought two loads from a Methodist church youth group this year which helped us and helped them.

This regulation is based on fraudulent data supporting so-called "climate change" and must be repealed immediately. President Trump is eliminating unnecessary regulations, and this is definitely one he should throw out. If you haven't already done so, I encourage you to contact other wood stove manufactures and dealers who will be impacted by this regulation and encourage them to contact President Trump, VP Pence, EP Director Scott Pruitt, and Linda McMahon, the new director for the Small Business Administration.

On the bright side, the original blower for our 521 furnace lasted from 2002 until yesterday. Our 521 has heated our home plus our very large garage during very cold weather. I call that good service. Thankfully, we had ordered a second blower when we bought the furnace, thinking we might need two, but one has been quite adequate. So last night I installed the new blower and we have great heat this morning. Thank you for making such a great product. We are thinking of purchasing another blower as a backup when this punks out 15 years from now.

As Christians, we believe God has a purpose for everything that happens in our lives. Not only did we discover the blower problem yesterday morning in time to shut down the damper on a full load of wood, protecting our home from an over-heating problem (it heated our home anyway), but it caused us to go to your webpage where we saw the alert about the EPA regulation. Thank you for posting it. God is a great God who looks out for us in many ways.

We will be personally contacting the President, VP, EPA and SBA as well as our congressman and senators about this issue”.

Sincerely,

David and Patricia P, Hillsboro IL

DAKA Model 521FB Owner

“Just to drop a little note. We bought our Daka add one [DAKA Add-On] three years ago now at Menards Ionia MI. This has been by far the best investment we could have made. This is a good quality product and have told many people about this. Thank you for a wonderful product made in the USA so I know it will have many years of enjoyment”.

DAKA Model 311 Owner

Model 311 furnace purchased @ Mills Fleet Farm. Owned since 1982 – 34 years! “Very, very happy with product”. Replaced a few firebrick and gasket over the years; nothing else. Original blower (oiled every 6 months & cleaned), original grate. Auto damper may need to be replaced after 34 years; going to look over and call back. Burns 3—4 cords a year.

John E, Green Bay WI

DAKA Model 621 Owner

Mr. Bill Holroyd of Minnesota called me and thanked us for making a great product. He had wanted to call us for years, but just never got around to it. He has a DAKA model 621 furnace that he bought back in 1985 (30 years ago) and it has been heating his house flawlessly and keeping him warm with absolutely no problems.

New DAKA Model 832 Owner, L&M Supply

"I purchased an 832 wood furnace from L&M Supply. I am extremely pleased with your product! I love it!"

Kurt K, Kimberly AL

January 6, 2015
New DAKA Model 521FB Owner, Northern Tool

"Deb, year number 3 on my DAKA furnace. House is toasty warm. Used one-third of the wood I used to burn. Thanks again (17 degrees today). 74 in house".

Dave S, Slickville PA

November 30, 2014
New DAKA Model 521FB Owner, Menards

"I just want you to know when our basement flooded, we had been thinking about using a wood furnace with our LP furnace to help with buying LP. Then our basement flooded and we lost everything in the furnace. So we decided to go ahead with a wood furnace. Was thinking of a Hot Blast furnace. My wife and I went to Menards and looked at a DAKA #521. My wife did research and we decided on your #521. We based our decision on the research: It is made in the USA and the price. I want to say it has been the best purchase I have ever made. We love it. I love the big heat chamber and how heavy duty it is. We just want to say thank you".

Howard M, Massena, IA

November 17, 2014
DAKA Woodburning Furnace Technical Issue

"Thank you very much. I am most impressed with your concern, in fact awed...I have never been treated with such consideration. After I adjust the damper control, I am going to tell everyone who comes into my shop that they should buy one of your furnaces...and or course how to periodically adjust the damper control. Thank you again for your thoughtfulness".

Larry, Hanna City IL

November 7, 2014
New DAKA Furnace Owner

"I purchased your DAKA furnace back in February 2014. This is a very good investment and quality built. We have used it quite a lot since then and love it. I had to call you about the damper, because it would not stay open. Your staff quickly advised me on how to fix it. Great job and keep making those quality products. I highly recommend your company. I wanted to tell you about your quality product".

Jerry S, Woodland MI

October 30, 2014
DAKA Model 521FB Owner

"I just wanted to say that you have the best wood furnace for the money. I have heated my 2500 sq. ft. house with your model 521 furnace since 2001. It keeps the house very warm in all kinds of weather no matter how cold it gets. Without any additional heat source, anyone considering wood heat would not be disappointed with your products. Thank you".

Steven A, Wilmot SD

February 3, 2014
DAKA Model 521FB Owner, L&M Supply

"I bought one of the DAKA furnaces 6 years ago. It has saved me money this year. Thinking about adding another blower to get more heat".

Don

New DAKA 521FB Owners

"We both really love these DAKA furnaces. These is nothing we have ever owned that competes with the performance, quality or price as these do. I guess you could say we are sold on DAKA".

Doug R, Pataskala OH

January 12, 2014
DAKA Model 521FB, L&M Supply

"This is a nice addition to any home. Easy hook up. Great price. Most of all, this stove heats my house no problem. Seasoned wood is the key. Have no regrets".

Tim

January 8, 2014
New DAKA 521FB Owner

"Thumbs up to a great wood burner. I purchased one of your wood burners from Menards last summer. It's a backup for our oil burning furnace. Your product has performed so well that we have not used the oil burning furnace at all this heating season. Even with the recent polar vortex. I've used 0 oil for the season and less than 2 cords of wood. Your product has been safe, efficient, clean and easy to use. I was so impressed I had to let you know. Thank you for a great American product".

Gary R

April 7, 2013
DAKA Retail Owner

"Thanks for all your help. Installed stove on Saturday. Works great"! Your company yourself have been very helpful keep up the great work.

Dave S, Slickville PA

February 19, 2013
New DAKA 521FB Owner

*"I got my 521 installed and am very pleased with it. Wood consumption is very low. 2 and 1/2 weeks on 1 face cord and the wood is a bit dozy too. My old outdoor boiler burned twice as much with less heat into the house. **I am glad it broke!** Thank You for a good product. In this age of getting short changed on most purchases, your stove was a very pleasant surprise".*

Sincerely,

Rob Y, Chatham MI

February 18, 2013
New DAKA 521FB Owner

*"I want to thank you very much. That was very quick of you. [Sent replacement hinge assembly @ no charge]. **This is possibly the best customer service I have ever received**".*

Trevor B, Stanley WI

February 15, 2013
DAKA Furnace Owner

"Thanks for the EXTREMELY fast shipping. WOW – very impressive. And we still love our furnace – 6 years now I think".

Dan, Hudsonville MI

February 19, 2013
New DAKA 521FB Owner, L&M Supply

"I am the proud owner of the 550cfm. We really enjoy the comfort it provides for me and my family. Financially, we are saving on our energy bills. It has paid for itself in two years. With price of natural gas constantly increasing, we are grateful that we made the decision to purchase our DAKA Wood Stove".

Glenn A., Sr.

January 9, 2013
DAKA Model 621 Owner

"I did 6 hours of wood stove maintenance repair, rebuild, and cleaning...new fire brick...da works. So now, after cleaning out the whole stove, the stove burns better....I checked out the stove at L&M and when the day comes, we will purchase another 621 because we know that it will fit where the old stove is and per the bride, the DAKA stove must be 30 years old. You guys build a good product and I like buying MN made. Thank you for your help".

Pete B, Deerwood MN

January 7, 2013
DAKA Model 521FB Owner, L&M Supply

"I got the 521 back in Sept. Wanted to see how it did. Warms up the house; not hard to put up. All parts are in box. Lowered my heating quite a bit. L&M Fleet had great shipping-very fast. It still cos less than the other stores. Their staff are also very nice. This is a great stove and AMERICAN made".

David E, Homeowner

December 6, 2012
DAKA Model 521FB Owner

"Great burner, great price... Menards has them for \$757. VERY happy with it, but it burns a lot of wood".

Josh
